

YOUR TRUE LOVE - CHRIS ISAAK (F#)

Hey! True love (true love) - true love (your love)
True love, baby, that's what you give to me

True love (true love) - your love (your love)
True love, baby, that's what you bring to me

Well God made the world and he made it round
He made my baby and I'm glad I found
Her love was meant for me
She gave me love and I'll always need

She gives me true love (true love)
Ooh true love (your love)
True love, baby, that's what you bring to me

SOLO

True love (true love) - your love (your love)
True love, baby, that's what you give to me

Well big, little, young and the old
They all want something they can have and hold
I found you, I found that
You give me loving I can't forget

You gimme true love (true love) - your love (your love)
True love, baby, that's what you bring to me
Oh oh, true love, baby, that's what you give to me
